To the Board of Directors Loaves & Fishes Food Pantry, Inc. Charlottesville, Virginia

Accountants' Responsibility

Our responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Notes to Financial Statements At December 31, 2017

NOTE 1 - NATURE OF ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES:

Nature of Activities:

Loaves & Fishes Food Pantry, Inc. is a 501(C)3 nonprofit organization that offers USDA-provided food, food donated from the Blue Ridge Area Food Bank, local retailers, local churches, and other local organizations, and food purchased with monetary donations to families in need within and around the Charlottesville community.

Basis of Accounting:

The Organization's financial statements are prepared on the accrual basis, in accordance with Generally Accepted Accounting Principles. Therefore, revenues are recognized when earned rather than when received and expenditures are recorded when incurred rather than when paid. Expenditures are capitalized as assets when the expenditure in one period can be seen as providing benefit to the Organization in future periods.

Use of Estimates:

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect certain reported amount and disclosures. Accordingly, actual results could differ from those estimates.

Financial Statement Presentation:

The Organization is required to report information regarding its financial position and activities according to three classes of net assets:

<u>Unrestricted net assets</u> - Net assets that are not subject to any donor-imposed stipulations. At December 31, 2017, the Organization reported unrestricted net assets of \$1,575,206.

<u>Temporarily restricted assets</u> - Net assets subject to donor-imposed restrictions on their use that may be met either by actions of the Organization or the passage of time. At December 31, 2017, the Organization had temporarily restricted net assets of \$91,874.

<u>Permanently restricted net assets</u> - Net assets subject to donor-imposed or other legal restrictions requiring that the principal be maintained permanently by the Organization. Generally, the donors permit the Organization to use all or part of the income earned for either general or donor-specific purposes. At December 31, 2017, the Organization had no permanently restricted net assets.

Cash and Cash Equivalents:

For purposes of the statement of cash flows, the Organization considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents.

Notes to Financial Statements At December 31, 2017 (Continued)

NOTE 1 - NATURE OF ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES: (Continued)

In-Kind Donations:

Contributions, including unconditional promises to give or contributions receivable, are recognized as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence and/or nature of any donor restrictions in the period the donor's commitment is received. Unrestricted, unconditional promises to give for future operations are recognized as temporarily restricted revenues unless the donor explicitly stipulates its use to support current period activities.

Non-cash contributions consist primarily of food donated by producers, manufacturers, the United States Department of Agriculture (USDA), and the general public. Contributed food is recorded as income and placed in inventory at the time of the gift.

Donated food and equipment are reflected as contributions in the accompanying statements at their estimated values at the date of receipt. No amounts have been reflected in the statements for donated services because they did not meet the requirements for recognition in the financial statements. Nevertheless, a substantial number of volunteers have donated significant amounts of their time in the Organization's program services and fundraising activities. The Organization received 19,010 hours in volunteer time in 2017. Noncash donations of food in the amount of \$3,757,193 were recognized in the financial statements.

Concentration of Credit Risk:

The Organization maintains its cash in bank deposit accounts at two high credit quality financial institutions. The balances are insured by the Federal Deposit Insurance Corporation up to \$250,000.

Inventory:

Purchased inventory is recorded at the lower of cost or market on a first-in-first-out basis. Donated inventories are stated at the nationally calculated average price per pound of \$1.72. This average value per pound is based on an independent study commissioned by Feeding America. At December 31, 2017, inventories consisted of the following:

Food \$ 178,100

Inventory is recorded using the average cost method.

Property and Equipment:

Property and equipment are stated at cost when purchased or at fair market value if donated, less accumulated depreciation. The straight-line method of depreciation is used over the following ranges of estimated useful lives.

Buildings and improvements 10-40 years
Furniture and equipment 5-10 years
Vehicles 5 years
